

HAPPY ROLLING

Happy Rolling is a children's bowling game designed to let younger players have fun while developing coordination and aim. The mini-ball rolling system and illuminated targets make each game simple, dynamic and highly entertaining.

Its nature-inspired design, combined with LED lighting and sound effects, creates an attractive environment that quickly captures children's attention. Everything is designed to ensure safe and easy-to-understand gameplay.

Thanks to its compact size and robust construction, it is an ideal option for children's areas and family entertainment centres looking for a visually appealing, high-turnover game.
