

MR HAMMER

This carnival-style strength game is a renewed classic that never goes unnoticed. Simply insert the coin, grab the hammer and strike with full power to try to reach the highest score.

The LED-lit strength meter reacts in real time to every hit, creating a striking visual experience that attracts both players and spectators. Each game encourages self-improvement, competition and proving who is the strongest.

It can be configured as an amusement game or with a ticket dispenser, adapting to different business models. Its robust and eye-catching design makes it ideal for amusement arcades, family entertainment centres, theme parks and leisure areas.
