

# POLICE CHASING

Police Chasing is an interactive driving arcade machine that immerses players in exciting police pursuits within a 3D environment. Its police car-inspired design, combined with a robust fibreglass structure, delivers strong visual impact and an engaging gameplay experience.

Equipped with a 24-inch LCD screen, steering wheel and pedal controls, the machine responds to every player input, simulating acceleration, steering and changes in pace according to the progression of the chase. The dynamic motion system and visual effects enhance the sense of speed and action in every game.

Integrated LED lighting enhances its presence and attracts attention, while the intuitive gameplay mechanics allow players to enjoy the experience from the very first moment. A dynamic and appealing attraction that combines driving, competition and interactive entertainment.

DIMENSIONS: 920 × 1680 × 920 MM
