

# SCOOP VAN ICE CREAM

This ice cream van ride is a family entertainment machine designed to let children enjoy an interactive ride while simulating the creation of virtual ice creams. Its smooth motion, music and lighting create an immersive and highly engaging experience.

It features a 17-inch LCD screen with 3D graphics, where players follow simple instructions to choose ingredients and decorate their own ice cream. The intuitive controls allow active participation, encouraging imagination and shared play.

A playful experience that combines riding, interaction and fun in a single game.
