

# PONY TREKKING

This three-seat children's carousel offers a fantasy-filled and colourful experience, ideal for attracting younger children. Its illuminated ponies and carefully designed details create a charming environment that invites children to hop on and enjoy the ride from the very first moment.

The central structure, inspired by a magical tree, features decorative lighting effects that add a special touch during the ride. It also includes interactive elements that emit sounds when touched, encouraging curiosity and sensory play.

The ponies move smoothly and continuously, recreating the feel of a traditional carousel. Constant-speed rotation and an emergency stop button ensure safe operation, always under adult supervision. An attraction designed to combine fun, calmness and a memorable experience for children.
