

# RAINBOW BALL

Rainbow Ball is a fast and colorful ticket redemption arcade game that combines precision and reflexes. After a short countdown, the ball drops onto a rotating table and the player must guide it into the scoring holes to accumulate the highest number of points possible.

Its rainbow theme, LED lighting, and sound effects create a visually appealing experience that is easy to understand for all ages. With a ticket system and score ranking, it is ideal for family entertainment centers and arcades looking for a dynamic, high-turnover game.
