

SHARK WHEEL

Shark Wheel is a visually striking redemption arcade game that combines strategy, precision, and fun for players of all ages. Designed with an aquatic theme and attractive graphics, the objective is to throw objects or activate mechanisms at the right moment so the wheels spin and stop on the highest-scoring sectors before the time runs out.

Its dynamic theme, together with LED lighting and immersive sound effects, creates an eye-catching experience that captures attention from the very first second. At the end of each round, the accumulated points are converted into redeemable tickets, encouraging replay and friendly competition among participants.
