

# TICKET CARNIVAL 2

Ticket Carnival 2 is a colorful and energetic redemption arcade game full of rhythm and fun. Designed to attract both children and adults, the main objective is to throw elements or activate mechanisms with precision to achieve the highest possible score within the game time.

Its festive theme and graphics, combined with LED effects and interactive sound, create an immersive and engaging experience. Every high score is converted into redeemable tickets that players can collect at the end of the round, encouraging replay and friendly competition.

Ticket Carnival 2 combines accessible entertainment, high player turnover, and strong visual impact, making it a standout attraction in any arcade.
